# Hidden History: An ExposÃ© Of Modern Crimes, Conspiracies, And Cover-Ups In American Politics

## Synopsis

The US government has spent as much time covering up conspiracies as it has helping the American people. In *Hidden History*, you will see the amount of effort that our government has dedicated over the past fifty years to lying and covering up the truth to the world. Starting with the assassination of President John F. Kennedy, Don Jeffries chronicles a wide variety of issues that have plagued our country's history. Whether it is the assassinations of MLK and RFK, Iran-Contra, the Oklahoma City bombing, TWA Flight 800, voting fraud, or 9/11, every major disaster or war that we've witnessed has somehow been distorted by those who are supposed to be protecting us. Jeffries also delves into extensive research on the death of John F. Kennedy, Jr. - and what he finds will shock you. So whether you've only heard bits and pieces of these stories or you've read several books on the topics, *Hidden History* is the book that belongs in every conspiracy theorist's library, as the information included here has never been collected together in any other published work available. So sit down, strap in, and get ready to be shocked and awed by how much has been hidden by our government over the past fifty years. Updated for 2016, this version features a new introduction by political insider Roger Stone.

Henry Ford is widely quoted as saying, "History is bunk." What he actually said was "History is more or less bunk." Donald Jeffries has elaborated on this theme in his new book by showing that behind what is commonly perceived these days as history is the real truth, or "Hidden History." As he

writes in his Foreword, "There is a willful desire on the part of those in positions of authority to keep the masses down, to involve us in perpetual wars, and to deny the great majority of Americans true liberty and the pursuit of happiness. Until the Internet came along, Americans had to rely on the television networks, daily newspapers, and large circulation magazines for their information. Now that there are finally true alternative sources available on the web, the dishonest nature of the mainstream media is brutally apparent. It's become almost comical to watch these relics from a bygone era continue to babble on about an absurdly restricted selection of topics, to control the tenor of debate, and transparently attempt to manipulate the public, as they were so successful in the past...In the pages that follow, you'll find an uninterrupted timeline of conspiratorial activity on the part of our leaders."I have been an attorney for over four decades. If I were a law school professor today teaching criminal law, I would make Jeffries' "Hidden History" suggested reading supplementary to the students' mandatory assignments. Why? Because his book truly shows the world as it really is.Paul Craig Roberts, former Assistant Secretary of the Treasury under President Reagan, recently opined: "Americans are a pitifully misinformed people. All of history is a history of false flag operations.
