Literature And The Writing Process (10th Edition)

Synopsis

Literature and the Writing ProcessÂ combines the best elements of a literature anthologyÂ with those of a handbook to guide students through the interrelated process of analytical reading and critical writing. Text writing assignments use literature as a tool of critical thought,Â a method for analysis, and a way of communicating ideas. This approach emphasizes writing as the focus of the book with literature as the means to write effectively.Â AÂ four-part organization combines a literary anthologyÂ with composition instructionÂ and a style handbook so students have everything they need at their fingertips.Â Â

Customer Reviews

The poems and stories and novels it contains are all great. But the quality material of the book itself not so much. The pages are really thin and easy to tear when turning a page. I tore six already myself without even trying.

Good range of classic literature stories and also has the much needed reference section at the beginning for different formats of essays and how to write using the MLA format ranging from the core elements to the format to the different ways to cite from the different sources.

It came in great condition. I especially love how we actually USE THIS IN OUR COURSE MORE

THAN THREE TIMES. Like wow.
