4th Grade Super Reading Success: Activities, Exercises, And Tips To Help Catch Up, Keep Up, And Get Ahead (Sylvan Language Arts Super Workbooks)

Synopsis

Good reading skills are essential not only for fourth-grade academic success, but also for lifelong learning. The teacher-reviewed, curriculum-based activities and exercises in this 3-in-1 SuperWorkbook will help your children catch up, keep up, and get ahead. Best of all, they[™]ll have lots of fun doing it! SPELLING SUCCESSWORD SEARCH -- Fun games help kids create new words by adding prefixes and then finding those words in a word search. CRISS CROSS -- Crossword puzzles review topics such as homophones (i.e., 5. Down: to welcome or receive Answer: accept). VOCABULARY SUCCESSHelps kids distinguish between synonyms and antonyms. Find three synonyms or antonyms in a row, and win! TIC-TAC-TOE -- COMBO MAMBO -- Reviews word roots by having kids create all the words they can from a given root. READING COMPREHENSION SUCCESSFACT & OPINION -- Interesting articles help kids back up opinions with facts from the text on topics such as "Should kids have cell phones?" QUESTION BUSTERS -- Right There and Think-and-Search questions explain how to find the answers to straightforward and not-so-straightforward questions about a story. PLUS! CHECK IT! STRIPS -- Reinforce concepts and build confidence as kids check their own work. Give your child[™]s grades and confidence a boost with 4th Grade Super Reading Success. Why Sylvan Learning Products Work[™] Sylvan Learning Workbooks won a Honors Award from the National Parenting Publications Awards (NAPPA) as a top book series for children in the elementary-aged category. The NAPPA is the nation[™]s most comprehensive awards program for children[™]s products and parenting resources, and has been critically reviewing products since 1990. The Award recognizes Sylvan Learning Workbooks as some of the most innovative and useful products geared to parents. Sylvan's proven system inspires kids to learn and has helped children nationwide catch up, keep up, and get ahead in school. Sylvan has been a trusted partner for parents for thirty years, and has based their supplemental education success on programs developed through a focus on the highest educational standards and detailed research. Sylvan[™]s line of educational products equips families with fun, effective, and grade-appropriate learning tools. Our workbooks and learning kits feature activities, stories, and games to reinforce the skills children need to develop and achieve their academic potential. Students will reap the rewards of improved confidence and a newfound love of learning.

Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

I bought the 3rd grade one last year for more to be 3rd Grader - I was hoping this one would be a little more mature - with less kid focused items. The book approaches the children as though they are still needing to be gently guided - I wish they jsut gave the work without all the little pictures and stories fit for a 4 year old. This will be my last Sylvan book purchase. Bought the DK publishing Mth book and way more appropriate and more like what he gets at school. Disappointed in Sylvan for structure and presentation - I have to argue with my son to do the pages as he says they are babyish and too easy - a waste of his time! He likes the math book though as it is just math problems no baby things. The Sylvan book also puts the answers on the page so I have to remove them before he can work - it is just too tempting to look at the answers if you are already annoyed and just want to be done. They should put them all in the back so the parent can remove them easily.

I was not happy with this book. The selection of words seemed a bit too hard for the age group and then not only that, but not terribly applicable. There was absolutely no grammar mechanics at all and grammar is so important in learning reading! I didn't like the way the book was laid out either with all the answers on the page so you had to tear them off the page and hide them before you could even let the kid have the book. Fortunately it wasn't very expensive, but this was truly a book that will not actually help kids learn much of anything.

I thought this was going to be great, but on page 33 and 3 major mistakes later, I am done with this book. One was on page 18 where they obviously forgot to include a word in the list that was needed. My husband and I had to figure out that a word was missing and what it was. Another mistake was on page 31 where the clue for a crossword word was, "it's ____" and we knew one letter and that we were to use a prefix. Are you kidding me? There was no list of words to use. The answer was premature. Bizarre. And it was either this one or the math one that said check your answers on page 19, and there were no answers there or on page 119 and there was no 190. Throwing this away and trying Kumon. Also, I don't know what the other reviewer is talking about with regards to stories and pictures. Those aren't in the book. And I wonder if the other reviewers have even gone over this book with their children.

Has good vocabulary but can be ambiguous for children with any kind of reading disability. Word lists are not always readily available which makes answering tedious. They are also frequently words we need to memorize but you are still guessing the answer which is not always an effective memory tool for long term knowledge. Arrived on time but I do not know that I would purchase this book again. However, their math books have been great.

Bought this for my son to work on over the summer. Activities are well created, and interesting. Great for kids to practice and keep from losing ground over long breaks!

My twin daughters have used 3rd grade books, and they learned a lot from them, so I bought the 4th grade books as well. This 3 in 1 book is really economical. The questions are well designed so that kids do not get bored easily or scared away after a few pages. I recommend it to 3-4th graders.

I am homeschooling a fourth grader. This book nicely meets our spelling, vocabulary, and reading needs. My daughter is responding nicely to how she can work independently when I assign certain pages each day. I'd highly recommend this book!

Working with my daughter, she's going into 5th grade, but she needs to preview 4th grade academics. Only on the 3rd chapter, so many mistakes?? Who edited this book? The spelling words are great but the worksheets seem to have at least one mistake per chapter so far. Would love to return!!!
