US Constitution: And Declaration Of Independence

Synopsis

This excellent edition of the US Constitution, including the Bill of Rights, all 27 Amendments, the Declaration of Independence, and the Articles of Confederation is presented in its original form without political commentary. Every citizen should have a copy of these priceless words that have shaken the world. They have changed our way of life. They have established a land of freedom. They are a shield for the good and a sword against evil. This is a treasure of America's most important documents collected into one beautiful volume: The Constitution of the United States of America, with the Bill of Rights and all of the Amendments; The Declaration of Independence; and the Articles of Confederation.

Customer Reviews

Large font easy to read. No Skousen nut case secessionist commentary. Just as it was written by the founders.

this is the one you want-no extra commentary thrown in by a sovereign citizen nut...no, it's not a buck-but, this is the one to buy...

This edition is beautiful. I love to hold it and flip its pages. The golden emblem on the front is very attractive and makes the book feel valuable. The interior organization is very good and the print is easily readable. A great edition.

This is one of the best United States Constitution books I have ever owned. Everything from the

cover to the font size on each page is spot on. The size of the book allows you to carry it around in almost anything. Hope this review helps.

Every American should own (and Read) this book. It was written for Us! Very highly recommend.

I've always had a copy of the Declaration of Independence and the Constitution in my possession since i was a child. It's gotten a little worn and I felt the time to replace it was a now. This book is the large print type which sort of took me by surprise but nevertheless it is exactly what i was looking for.

I thought it was about time I actually read the constitution, so I ordered this copy for myself and anyone else who is interested. Everyone should have a look at the founding documents of our country. Maybe there wouldn't be such conflict if the correct, original version was taught in high school. This one has no commentary or opinions inserted in the text. Best way to read without someone else's comments.

Two stars because it is, after all, two of the greatest documents of government ever produced by mankind and I cannot bring myself to give it just one star, however... the table of contents has errors!!!! They are small errors, only a few pages off, but seriously. If you can't even make a proper table of contents for a relatively short book how is the average reader supposed to feel about the accuracy of the of the text itself? Oh well... at least it was made in the USA. Unless that was a typo too.
