Life-Changing Medical Invention: Build A Successful Enterprise And A New World
In Life-Changing Medical Invention, Dr. John Allen Pacey offers insight into the high-impact world of operating room innovation. Physicians today have the opportunity to revolutionize the healthcare industry by inventing new medical platforms to improve patient care and reduce costs. As a Vascular and General Surgeon himself, Dr. Pacey brings 15 years of innovative experience, having guided the invention of 33 GlideScope variants and 6 aperture video retractor variants for surgeons as well as the invention of supportive tools. You’ll learn about passion and life-changing moments experienced by great inventors. Creating an idea is followed by a ten-plus-year period of execution during which one must entrain money, great people, and build a new world for all. The profound importance of mentoring and know thy customer. Planning unique invention to avoid me too ideas that fail to add value. Learning how to create a blue ocean opportunity and sell to real customers for real money so that you can exploit your passion further. The benefit of sweat equity, frugality, and bootstrapping to pull through the valley of death and benefit of persistence to never surrender. If you are a physician with a patentable idea or a student hoping to become an inventor, this book will provide examples of those who persisted and won.

Synopsis

In Life-Changing Medical Invention, Dr. John Allen Pacey offers insight into the high-impact world of operating room innovation. Physicians today have the opportunity to revolutionize the healthcare industry by inventing new medical platforms to improve patient care and reduce costs. As a Vascular and General Surgeon himself, Dr. Pacey brings 15 years of innovative experience, having guided the invention of 33 GlideScope variants and 6 aperture video retractor variants for surgeons as well as the invention of supportive tools. You’ll learn about passion and life-changing moments experienced by great inventors. Creating an idea is followed by a ten-plus-year period of execution during which one must entrain money, great people, and build a new world for all. The profound importance of mentoring and know thy customer. Planning unique invention to avoid me too ideas that fail to add value. Learning how to create a blue ocean opportunity and sell to real customers for real money so that you can exploit your passion further. The benefit of sweat equity, frugality, and bootstrapping to pull through the valley of death and benefit of persistence to never surrender.
