## Customer Reviews

I'm not quite that advanced in my learning of the language and I thought it would help me learn by writing (what I taught for years), but it is too far advanced for me. If you are homeschooling and you're further along in the language, it would be a great addition to your curriculum.

It must be a good book because its a good teacher who chose it. Still, I would have preferred it had more instruction in English, especially in the beginning so I could confirm if my understanding was correct.

Best for review and study. Easy to follow and learn.

excellent complement to the textbook
